Christmas Day...

25 December most farms are closed

Why do cherry farms change from day to day?

Growers can't predict when they will sell out of
ripe cherries but usually there is a new variety
ready in a few days time. Cherries need to stay on
the tree until they are sweet - then its time to
pick them. They are not like bananas or other fruit
that can be picked green then get sweet after.

Many Farm Gate farms will take orders for
Christmas and New Year. Contact them directly

Warning...

All farms will close when a Catastrophic Fire
Danger Day is declared. This may happen once or
twice over summer. Just defer your visit a day or
so until the weather improves. Check:
www.bom.gov.au/sa or www.cfs.sa.gov.au

Pick Your Own - Have fun, stay safe

Do:

- ✓ Check the App to see who is open
- ✓ Put yourselves and children in jeans,
sneakers or other closed shoes for
walking on hills in grass,
- ✓ Bring hats, sunscreen and water
bottles
- ✓ Check for weather warnings - stay out
of the hills if a catastrophic fire day is
declared - www.bom.gov.au/sa
- ✓ Fill up your car before leaving the city

Disclaimer...

"This map is produced by volunteers on behalf of the members
of the FPSA (Fruit Producers of S.A.) who wish to advertise
their Cherry Farms, other fruits and products. The map does
not imply any endorsement by the FPSA in respect of the
quality of each map participant's fruit and products, which
remain solely the responsibility of each individual participant.
For farms participating in the pick your own ("PYO") aspect
shown on the map, it is the case that the topography of each
farm will vary, and may include steep slopes, uneven surfaces
and other hidden dangers including rocks. All participants
are advised to exercise due care and take responsibility for their
own safety when they visit a farm. We suggest that you choose
NOT to visit a farm on a wet weather day due to the additional
risks of slipping. You are also advised to wash fruit you have
picked before consumption."
